

# Irene Grape

## Front-End Developer

I am a self-taught front-end developer with a strong academic background in physics and mathematics. I am currently looking for a junior front-end position where I can gain real practical experience, work on real projects, and grow as a developer.

I am well organized, reliable, and used to working with deadlines. I can break complex tasks into smaller, clear steps and work through them in a structured way. I work well both independently and in a team. I am motivated by results and continuous learning.

## Technical Skills

- HTML, CSS, JavaScript (ES6+)
- React
- MongoDB, MySQL
- Python
- JSON
- Git, GitHub, VS Code
- Basic understanding of REST APIs

## Projects

- Built responsive web pages using HTML, CSS, and JavaScript
- Developed interactive user interfaces with React
- Worked with APIs and JSON data
- Practiced basic full-stack setups using MongoDB and MySQL
- Focused on clean, readable, and maintainable code

## Work Experience

### Physics and Mathematics Teacher

- Explained complex topics in a clear and simple way

- Planned and structured lessons effectively
- Worked with strict schedules and deadlines
- Developed strong analytical thinking and problem-solving skills
- Built strong communication and teamwork skills

## Education

Master's Degree (equivalent) in Physics and Mathematics

5 years of university-level education

## Additional Information

- Self-taught in web development
- Fast learner and highly motivated
- Strong sense of responsibility
- Looking for long-term professional growth

## Languages

- English - working proficiency
- Russian - native
